

## **Billing Reimbursement utilizing the Futrex Body Composition Analyzer.**

*While there is no specific CPT code that directly refers to a Body Composition Analysis, there are valid examples of practices having been reimbursed for their use of the Futrex instrument with existing CPT codes.*

### Case Study 001:

Information provided in **CPT 2002 Guide, published by the AMA.**  
See section: Physical Medicine and Rehabilitation

### **CPT Code – 97750 – Physical Performance Test or Measurement**

**Summary:** Medical office is a cancer treatment facility. A patient's physical performance is evaluated and monitored as part of the treatment they receive.

They analyze a patient using four separate tests. Each test is one unit and subject to reimbursement under this CPT code. The four separate evaluation units include:

- ? Strength
- ? Flexibility
- ? VO2 Max
- ? Body Composition

The accompanying ICD9 code used in the above case is 780.79 – Generalized Weakness.

### **Example of billing:**

- ? \$69.00 per unit
- ? \$30.28 per unit under Medicare
